Dear Resident:

The Helmetta Office of Emergency Management is a borough department that conducts most of their work “behind the scenes”, often updating emergency plans, conducting hazard analysis, developing relationships with various emergency responders, attending borough meetings, and ensuring that our community is informed and safe.

The emergency management team is always working on improving communications with our residents. One such area of communication that we have begun to utilize is social media. In today’s fast paced society, social media allows for “real time” updates in emergency situations; however, the source of the information needs to be verified and reliable. In an effort to provide that reliable and verified information, Helmetta OEM has now set up Instagram account, along with the current Facebook page and we will be adding Twitter and Snap Chat accounts in the near future. If you have any of these accounts, please search “Helmetta OEM” and LIKE and FOLLOW the pages so that you can receive important information related to Emergency Management concerns and issues.

Another project that the Office of Emergency Management has been continuously working on is a more accurate accounting of our residents. This is important information for us at emergency management to have as it helps in preparing evacuation plans, sheltering plans, and overall emergency response plans. We need to know the number of residents in each home, the number of pets and any special concerns or issues you may have which require our immediate attention in an emergency situation, such as medical equipment needing power during power failures, residents with dependence on oxygen etc. We are asking each residence to complete and return the form at the bottom of this letter, so that we may serve your needs better moving forward.

Thank you for your anticipated cooperation to this request as we work to continue to make Helmetta a safe and great place to live! If you have any questions or concerns, please feel free to contact the Office of Emergency Management at any time.
